

Create a console app, to perform CRUD operations on Employee List  
Employee POCO class

Id  
Name  
Email  
Dob  
Address  
PhoneNumber  
City

Create EmployeeCrudList class with following methods

```
public bool CreateEmployee(Employee employee)
public List<Product> ReadEmployeeList()
public Product SearchEmployee(int id)
public Product SearchEmployee(string email)
public bool UpdateEmployee(Employee employee)
public bool DeleteEmployee(int id)
```

In the Main method display a menu

Menu  
1.Create  
2.ReadList  
3.SearchById  
4.SearchByEmail  
5.Update  
6.Delete  
7.Exit
